Attention: Box Non-Fee

Sir:

This is in response to the Official Action mailed August 8, 2001 for the above-identified patent application.

The subject Official Action required Applicants to restrict prosecution of the claims in this application to either Group I (Claims 42-48), Group II (Claims none),

PATENT

or Group III (Claims 53-56). Accordingly, Applicants elect Group I for prosecution in this application. However, Applicants respectfully traverse the subject restriction requirement because it is respectfully submitted that all of the Claims 37-56 may properly be examined together.

The Official Action further required Applicants to elect a single disclosed species according to 35 U.S.C. § 121, even though the requirement may be traversed. Applicants hereby elect the species defined as Compound XIX, which is disclosed in Claim 45 as well as in the specification at pages 12, 20, 28-29, and 35. However, Applicants respectfully traverse the subject restriction requirement.

In view of the foregoing elections, examination of this application on the merits is respectfully requested.

Respectfully submitted,

---

Louis S. Sorell
